

Respected Sir/Madam,

I feel glad to learn and explore current opportunities within your Organization.

Something about me that might interest you;

- Bachelor's Degree in Electronics and Communication Engineering with solid background in IT fundamentals.
- 10 plus years of experience in Infrastructure support and Data warehouse technologies
- Good understanding and adoption skills in emerging technologies - Cloud, Containers, Ansible etc.
- Strong foundation in DevOps / SRE culture and adoption skills.
- Keen observer and quick learning skills. Student ever!
- Team player attitude with commitment towards deliverables.
- Innovation is part of my work DNA.

Glad to discuss further on my skills and professional experience. Thanking for giving me this opportunity to introduce myself.

Regards,

Sridhar N
